

CRRC Omnibus Survey, Wave 23

Fact sheet

Population: The adult population of Georgia living in Tbilisi-administered territories, except in areas of Abkhazia and South Ossetia.

Sample size: 1,314 completed interviews according to AAPOR standard definitions (50% of eligible variables are answered by the respondent)

Fieldwork dates: February 27 - March 5, 2025

Minimum response rate (AAPOR RR1): 15%

Interview mode: Interviewer-administered telephone survey

Interview languages: Georgian, Armenian, Azerbaijani, Russian

Survey design: Random sample from the list of the available phone resource. Each phone number is treated as a personal-use device.

Primary sampling units: individuals.

Strata: Capital (Tbilisi), urban, rural settlements

Weights: Results are weighted. Base weights are adjusted using the 2014 National Census data for controlling respondents' gender, age, ethnic identity, education, and residence. Population counts by groups (settlement type, gender, age, education, ethnic identity) are calibrated using the iterative proportional fitting (raking) algorithm.
