

Fact sheet

Caucasus Barometer is an annual survey about socio-economic issues and political attitudes conducted by the Caucasus Research Resource Centers (CRRCC) in the three countries of the South Caucasus: Armenia, Azerbaijan and Georgia. The project started in 2004. Representative nationwide data is available since 2008 (before 2010, the survey was titled The Data Initiative).

Population: Adults (18 years old and over), excluding the populations living in territories affected by military conflict (Mountainous Karabakh, Nakhichevan, South Ossetia and Abkhazia) and Nakhichevan.

Sample Design: Multi-stage cluster sampling with preliminary stratification.

Sample Size: 2384 respondents.

Response rate: 72%

Survey mode: Face-to-face paper-and-pencil interview (PAPI).

Interview languages: Armenian

Fieldwork Dates: November 2, 2012 to November 29, 2012.

Results are weighted.
